## 6. Scoring System

### 6.1 Semi-final in 100 m obstacle course and in climbing to the 4<sup>th</sup> floor of traing tower

- Qualification to final round (8 places) is determined by the best result shown in two attempts;

In the case when two or more competitors show the same result, the preference is given to the one:

- showing the best sum of time in two attempts
- with the best result after the first attempt
- who started earlier

- Semi-final setting     I: 5+ 1+4+8,  
                                  II. 6+ 2+3+7;

### 6.2 Final in 100 m obstacle course and in climbing to the 4<sup>th</sup> floor of traing tower

- best four competitors qualify to final;
- in case when more competitors reach the same time in semi-final, the preference is given to better result after first two attempts;
- track setting: 3<sup>rd</sup> time – 1<sup>st</sup> time – 2<sup>nd</sup> time – 4<sup>th</sup> time

### 6.3 Determination in obstacle relay-race (4x100 m)

- both times are been classified, which means that both competition teams from one national team can win medals;
- preference for giving points to team in team category is given to better time achieved. If results in relay-race are equal the preference is given to the one showing better sum of both times, then to order of better time achieved and finally to drawing;

## 7. Awards Ceremony

- medals are provided according to Rules of International Sport Federation of Firefighters and Rescuers;
- prizes are provided by Organizer;
- medals and prizes will be given only in one set with no matter which country is the competitor from;
